Age Level	Title	Author	Book Summary	Copyright/ Publisher/ISBN	Format
Youth-- Ages 4-12	<i>Agatha's Feather Bed</i> ☉☉	Agra Deedy, Carmen	This book explains that everything on the earth comes from something on the earth--silk from silkworms, cotton from a cotton boll... Check out Agatha's Feather Bed at www.ceee.uni.edu/wastereduction/alphaorder_lessonplans.aspx to learn one way to use this in the classroom.	1994: Peachtree Publishers 1-56145-008-1	Illustrated picture book
Youth— Ages 10 and 14	<i>Earth Keepers</i>	Anderson, Joan	This book introduces readers to the Hudson River, a New York City community garden, and to the Minnesota wilderness...and to people who are working to reverse destruction of natural areas.	1993: Gulliver Green Book, Harcourt Brace & Co., NY , NY 0-15-242199-8	91 pgs. Nonfiction
Youth-- Ages 4 and up	<i>Home</i> ☉	Baker, Jeannie	This wordless book begins with a mother and father holding their newborn in an urban environment with only a trace of the natural world. As the baby grows, so too does the greening of the neighborhood, turning a drab city street into a living, thriving home.	2004:Greenwillow Books, an imprint of HarperCollins Publishers 0-06-623935-4	Illustrated picture book
Youth-- Ages 4 and up	<i>Window</i> ☉☉	Baker, Jeannie	This wordless book begins with a mother holding her newborn son as she looks out the window at a pond and lush vegetation. The following illustrations show the changes in the landscape during the next 20 years.	1991:Greenwillow Books, a division of William Morrow & Co., NY, NY 0-688-08917-8	Illustrated picture book
Youth— Ages 7- 12	<i>Chattanooga Sludge</i>	Bang, Molly	This book challenges students to be problem-solvers by telling them about a man who tried to clean poisons from the Chattanooga Creek.	1996: Harcourt Brace & Co., Orlando , FL 0-15-216345-X	47 pgs. Nonfiction
Youth-- Ages 6 and up	<i>Common Ground: The Water, Air and Earth We Share</i>	Bang, Molly	This parable about sheep and the Commons where they graze demonstrates impacts of daily actions and the value of working together to preserve common ground.	1997: Blue Sky Press, an Imprint of Scholastic Inc.: NY , NY 0-590-10056-4	Illustrated picture book

Ages 6-12	<i>Tree of Life</i>	Bash, Barbara	This book describes the lifecycle of one of Africa's trees--the baobab, which has branches that look like gnarled roots. These trees, often measuring 60 feet tall and 40 feet across, have a lifespan of over 1000 years. In the book, the baobab tree dies--but one of its seeds sprouts, so life continues. One of nature's great lessons is recreated in this wonderfully illustrated book.	2002: Sierra Club Books, San Francisco, CA 1-578-05086-3	Illustrated picture book
Youth--Ages 6-9	<i>Table Where Rich People Sit</i> ☼	Baylor, Byrd	A girl feels her family doesn't have enough money. As the family discusses this issue at their worn-out table, they determine there is much value in the non-tangibles of their lives--the sunsets, the stars, the wind. The girl decides her family may indeed be rich after all.	1994: Aladdin Paperbacks/Simon & Schuster, NY, NY 0-689-82008-9	Illustrated picture book

www.ceee.uni.edu/wastereduction/workshops.aspx

Who should attend

The workshop targets middle school language arts, science, social studies, math and TAG, but is adaptable to K-12th grades. **Teacher teams are encouraged to participate.**

Study about the environment is meaningful and relevant in most disciplines because the issues are real-life and lessons are hands-on.

Workshop details

This workshop will emphasize lifecycle analysis, waste reduction and reuse,

*A limited number of free registrations are available thanks to the generous support of local solid waste agencies. Watch for this information at <http://www.ceee.uni.edu/wastereduction/workshops.aspx>.

hazardous materials, and will incorporate other environmental concerns. You will receive:

- **One hour of graduate credit**, meals and refreshments. (This course does not count toward a UNI degree program.)
- **Bibliography of resources** for reading in content areas
- **Free resources—valued at more than \$70**—that are directly applicable to cross-curricular and thematic units
- **Tour the Boone County Landfill**, the Recycling Center and Household Hazardous Materials Facility.
- **Modeling of activities**
- **Classroom-ready lesson ideas** that incorporate research-proven instructional strategies

After attending Part I of the workshop, teachers return to classrooms to teach waste reduction mini-units using materials provided at the workshop. In the Part II workshop, teachers will exchange information, discussing what worked and what didn't. Participation in all of Parts I & II is required for graduate credit.

Standards

Iowa Teaching Standards: Components of most of the teaching standards may be met through this course, including but not limited to: Standard 1 (a, g); Standard 2 (d); Standard 4: (b); Standard 5: (a, d); Standard 7: (c); Standard 8: (e).

Staff Development Standards: Assists teachers in improving student learning; Improves teaching evidenced through the adoption or application of practices, strategies, and information.

What teachers say

“Our school offers t-shirts for every activity... Besides the expense, students now realize there is a high environmental cost to pay as well.”

“I built a great [social studies] lesson between [Stuff: The Secret Lives of Everyday Things, a free resource to workshop participants] and the novel Amos Fortune: Free Man...”

“I work with international students and public school students. We use the book and poster to generate discussions. The American students realize how wasteful our society is after this discussion. It is a very powerful book.”
